# WAFBEC 2017 CONFESSIONS

---

*\*Kindly note that as you speak, it is important to have visual experiences of the word in you.*

I declare into WAFBEC 2017 that in answer to the collective prayers of the church, through this meeting, there was a mighty move of the Spirit in the city of Lagos as a great wind that blew over the land.

The power of satan was broken over the minds of people and the covering over them completely removed. Thoughts of attending WAFBEC flooded the minds of people all over Lagos and beyond as the Spirit quickened people. The human restraints created through fleshly commitments were broken and there was a great release of people into the meeting.

The Spirit then moved upon the ministers and great utterance was granted at each meeting such that the auditorium was constantly filled with the power and presence of God. God's hands were evidently at work healing all the sick that came of every type of sickness and disease.

Souls were saved and restored in great numbers as God moved by His Spirit ministering to people in the secret places of their hearts.

---

---

God visited me at WAFBEC. All the requests I made known unto Him in prayer were ministered to and that beyond my expectations. This was the testimony of everyone I spoke to as God visited us all ministering to every single person who attended in faith.

Every single attendant heard the voice of God in their spirits giving them direction and establishing them in the doctrines of Christ. Ministries were birthed and revived.

By the events that started happening after WAFBEC, it's clear Covenant Christian Centre that hosted these ministries evidently has the prosperity and blessings of God upon it.

The meeting was well organized and it was a hitch free experience in every single way.

I rejoice in my spirit over all that happened, I praise and thank You God who not only blessed us during the meeting, but who is continually working in us to complete every single thing You started.
